FOSTER/FOSTER TO ADOPT AND ADOPTION APPLICATION

Thank you for being interested in fostering/adopting. Fostering/adopting is one of the most important and valuable parts of kitten rescue; a chance for the kittens to be restored to health and grow up healthy and social. And most importantly, knowing they are loved and cherished.

Fostering is a temporary commitment, but due to illness or lack of space with adoption partners, there may be no way to commit to an end date from the start. Fostering is on average, 2 to 14 weeks. Or you may sign up as an emergency foster home – typically just a day or two while we find a more permanent space for the kittens/cats. Adoption is permanent.

Type of fostering you are interested in: Please ask us for more details before deciding on your choices.

___ Bottle babies: kittens that are often days/hours old and require bottle/syringe feeding etc. This is very intensive for the first 3 weeks

___ Weaned babies: kittens already on solid food, needing socializing

___ Socializing: this can apply to any age of kitten or cat and can require much patience

Personal Information:

Name: _____

Address: _____

Phone: _____

Email: _____

Spouses Name: _____

Do you have children? _____

What ages? _____

Are they used to and gentle with animals? ____yes ____no

Are all the family in agreement with fostering/adopting? _____

Any allergies? _____

Pets and Environment

Do you have pets? _____

Type: _____

Vaccinated? _____ Spayed/neutered? _____

Employed?: (we ask to judge time commitments/availability only)

Rent ____or Own _____ Landlord's consent? _____

Type of home: _____

Do you have a room where you can you isolate the foster animals? _____

Any plans for moving/renovating in the near future? _____

Are you available immediately? _____

If not, when? _____
